Document version:	1.8		

I INTRODUCTION

The school is committed to the health and well-being of its members and will take action to safeguard their well-being.

Our school believes that the misuse of drugs not only endangers our pupils but also affects the wider community in which we live. It is the school's responsibility to ensure the child's health and safety while in our care and we also strive to promote their personal and social wellbeing. Drug misuse undermines this and hinders the development of the young person.

The policy provides a focus for the school to consider how drugs education should be implemented and developed within the curriculum, and outlines the roles, responsibilities and legal duties of key staff. From a wider perspective, it gives parents and the local community an opportunity for involvement in drug issues. The policy forms an integral part of our existing health education and personal and social education programmes, and the drug education programme complements this.

1.1 AIMS

To enable pupils to make healthy, informed choices by increasing knowledge, challenging attitudes and developing and practicing skills. The school recognises that making informed choices is not always easy against a background of peer pressure. For this reason we see the teaching of strategies to deal with peer pressure as fundamental to our drugs education approach. We believe that our fundamental core purpose of developing positive learning attitudes supports this area of our work.

1.2 RATIONALE

St. Stephen's Primary School recognises that young people in today's society are exposed to the risks associated with the drug culture that exists.

The school wishes to promote the development of the 'whole person' which encompasses physical, mental, emotional, social and environmental health; by equipping pupils with the knowledge, skills, attitudes and values to handle their lives effectively in the present and prepare them for adulthood.

Drugs education should therefore form an integral part of the school curriculum.

1.3 RESPONSIBILITIES

The Headteacher will take overall responsibility for the policy and its implementation. The Headteacher will ensure that all staff dealing in this area are trained in the presentation of substance use and misuse issues to children.

Where necessary, the Headteacher will take responsibility for liaison with the media, having taken appropriate advice from support agencies.

The Headteacher will work with Social Services and Drug Advisory personnel to refer and support those affected by drug related issues and incidents.

2 THE RANGE OF SUBSTANCES

'A drug is any substance which, when taken, has the effect of altering the way a person behaves, feels, sees or thinks. As well as everyday substances such as tea and coffee, drugs include:

- alcohol and tobacco
- 'over the counter medicines' such as paracetamol for headaches
- prescribed drugs, such as antibiotics and tranquilisers
- volatile substances such as glues and aerosols
- illegal drugs such as cannabis, LSD and ecstasy

The school recognises that this policy focuses mainly on illicit drugs.

Procedures for handling alcohol and tobacco misuse are outlined in Appendix I and are also covered the Discipline Policy. Procedures for handling prescribed medicines and volatile substances are also outlined in Appendix I and are in the school Health and Safety Policy. This policy complements these policies and also the Child Protection Policy. It does not exist in isolation.

If the Head Teacher has reasonable grounds to suspect that drugs are being used or supplied on the school premises, they will take appropriate steps to inform the relevant bodies in order to avoid any liability as a 'manager or occupier' of premises.

If staff have taken possession of a substance for the purposes of protecting a pupil from harm and from committing an offence; they should under no circumstance try to analyse or identify it. If they suspect it to be LSD, they should wear gloves when handling it, to avoid ingestion through the skin. The drug should be immediately stored in a safe place, and the police contacted.

3 PROCEDURES FOR HANDLING AND REPORTING INCIDENTS

A suspected drug related incident is described as

- Suspect drugs found on the school premises
- A pupil suspected of being in possession of drugs
- A pupil found to be in possession of drugs
- A pupil suspected of being under the influence of drugs
- An adult suspected of being under the influence of drugs

When an incident occurs the member of staff involved should:

- Make the situation safe
- Send for support
- Administer first aid if necessary
- If an illegal drug is found it should be secured in a safe place until dealt with by the police
- Report the incident

The incident will be in the first incidence reported to the Head Teacher who will contact the police in this area. The parents will also be contacted and made aware of the situation. The incident will be recorded by the teacher involved and by the designated teacher.

All staff are made aware of the procedures and where necessary emergency procedures will be followed. If a search needs to be made the Head Teacher will conduct this with an appropriate witness.

3.1 EMERGENCY PROCEDURES

For the purposes of this policy, an emergency is considered to be either:

- A situation in which a pupil or staff is in danger, or
- A sequence of events which require urgent attention.
- An alert card will be sent to each classroom to inform staff to follow agreed emergency procedures.

3.2 CONFIDENTIALITY

Where a pupil discloses to a teacher that he or she is taking drugs, the teacher should make it clear that he or she can offer no guarantee of confidentiality. However the teacher can advise the pupil of other sources of confidential information or advice. Pupils should also be encouraged to talk to their parents. A record will be made of the disclosure and the Head Teacher is to be informed.

4 THE PLACE OF DRUGS EDUCATION WITHIN THE CURRICULUM

Drug education should not be seen as a one off topic but as a continuous process which involves the development of skills and attitudes enabling pupils to make informed choices. Effective drug education should take account of not only the individual, but also the family, their peer groups, and the wider community. Where possible, the school promotes the partnership between the parent and child, when addressing drug issues.

At Key Stages 1 and 2, the statutory curriculum for pupils includes the cross-curricular theme of Health Education. This theme provides opportunities for young people to develop their knowledge and understanding of the use, misuse, risks and effects of drugs and other potentially harmful substances, their effects of health and lifestyle.

Drugs education is specifically included within the Year 2 Programmes of Study for PHSE where there are opportunities for considering drug-related issues from a variety of perspectives. Year 6 also take part specific PHSE session related to Drug use. They also attend a Lifeskills session, where they take part in a number of scenarios concerning their personal wellbeing.

5 THE AIMS AND OBJECTIVES OF THE DRUGS EDUCATION PROGRAMME

The school's drugs education programme is grounded in the following aims and objectives:

5.1 AIMS

- To promote positive attitudes towards personal health.
- To develop self-discipline and self-respect.
- To build pupils' self esteem.
- To develop decision-making skills which may delay or prevent the onset of experimentation.
- To inform pupils of the effects of drug abuse, and the risks involved.
- To help pupils to understand how they can influence their peers.
- To develop knowledge and understanding of themselves and others as individuals.

5.2 OBJECTIVES

Drugs Education should enable pupils to develop a knowledge and understanding about drugs and drug issues, as well as the skills needed to cope with challenges they will encounter.

Pupils should be able to:

- Understand their own personality, needs, abilities and interests.
- Understand the process of reasoning required to make informed choices.
- Explore their own attitudes towards drugs and drug issues.
- Develop coping strategies to deal with peer pressure.
- Develop a competence in challenging attitudes and patterns of behaviour associated with drug misuse.
- Develop self-discipline.
- Understand what is meant by 'a drug' and the definition of 'addiction'.
- Understand how some drugs affect the body.
- Be aware of the benefits of healthy lifestyles.
- Recognise potential drug exploitation and how to take avoiding action.
- Be aware of the current drug culture and the effect of advertising campaigns.

6 THE DELIVERY AND ORGANISATION OF THE DRUGS EDUCATION PROGRAMME

Drugs Education is a whole staff issue. St. Stephen's CE VA Primary School ensures that staff are regularly updated with changes in the curriculum and changes to the policy, which have an effect on their delivery of the curriculum. Where possible staff receive in-service training on drug issues.

6.1 OUTSIDE AGENCIES

St. Stephen's CE VA Primary School may use outside agencies to help deliver the drug education programme if the teacher ensures that the following criteria are met:

- The content and delivery of the programme has been jointly agreed.
- The programme and methods of delivery are consistent with the aims and objectives outlined in this policy.
- The Head Teacher has given approval for the use of the outside agency.
- CRB disclosure will be required from any person delivering drug education.

7 LINKS WITH PARENTS, THE COMMUNITY AND THE POLICE

Parents play a vital role in the prevention of drug misuse. They are involved in the planning of the school drug policy and they should be involved fully in the education of their child. This is especially so with the drug education programmes. Parents are encouraged to play an active role in homework tasks, and discuss drug issues with their child whenever possible. Parents are also aware of the school's procedures for dealing with drug related incidents.

The school endeavours to work closely with the local community to help reduce the number of drug related incidents.

St. Stephen's CE VA Primary School has developed good working relationships with the local police. This helps to ensure that if a drug related incident is reported, it will be dealt with in a professional and discreet manner, and in keeping the best interests of the child concerned in mind.

Whilst the school aims to work closely with parents for health and safety reasons there will be no administration of drugs by staff to the pupils at the school.

8 THE ROLE OF THE HEAD TEACHER FOR DRUG RELATED INCIDENTS

The Head Teacher is responsible for the co-ordination of the arrangements to deal with individual cases of suspected or actual drug misuse. This role includes:

- Implementing procedures as outlined in this policy for dealing with an incident
- Receiving any substance found in school
- Liaison with the appropriate authorities on any drug related incident
- Regularly updating staff on the policy and the procedures for dealing with a drug related incident
- The induction of new staff as appropriate
- Liaison with outside agencies in relation to drug related incidents
- Reviewing and updating the school drug policy, when required.

9 MONITORING AND EVALUATING

The school drug education policy is periodically reviewed to reflect changing circumstances and trends in drugs use. The programmes of study for drug education are continually reviewed and any changes deemed necessary are implemented.

The induction of new staff will include introduction to this policy.

The policy is available to parents if they request it.

A. APPENDIX

10 PROCEDURES FOR HANDLING ALCOHOL MISUSE

The school premises are an alcohol free zone during normal school hours. The school does not allow any alcohol to be consumed on school premises during this time. This applies to visitors, staff and pupils. For social events, alcohol is occasionally sold for consumption on the premises. Appropriate licences are to be obtained. Responsibility for the sale and consumption of alcohol at these events lies with the Headteacher whether or not a licence is required.

Adults breaking this rule will be referred to the Headteacher directly.

Pupils will be dealt with under the school's discipline policy.

11 PROCEDURES FOR HANDLING TOBACCO MISUSE

The school is a restricted environment with no one being permitted to smoke on the school premises.

Adults breaking this rule will be advised by other members of staff.

Pupils breaking this rule will be dealt with under the school's discipline policy.

12 THE MANAGEMENT OF PRESCRIBED MEDICINES

At the start of the school year, parents must complete a medical form indicating any medical illness their child has. The parent is also advised that the school will not, as a matter of course administer medicine to a pupil. If an emergency arises, the parent will be contacted and permission sought if necessary.

If a pupil needs to bring a prescribed medicine into school, the following guidelines must be adhered to:

Relevant B&NES paperwork must be completed.

A letter from the parent explaining the nature of the illness and the time / dosage required during the school day must be sent with the pupil.

The medicine should come in its prescribed bottle with the name of the child, dosage, and time to be given clearly marked. It should not come in any other container.

The pupil must immediately give the medicine to the Headteacher

The Headteacher must store the medicine in a secure space and ensure that only the pupil for whom the medicine is prescribed, takes the medicine.

13 THE MANAGEMENT OF SOLVENTS

Pupils are not permitted to bring solvents or aerosols into school. This includes tippex fluid and pens, tippex thinners, glue, marker pens and spray deodorants. Pupils are permitted to bring felt tip pens to school.

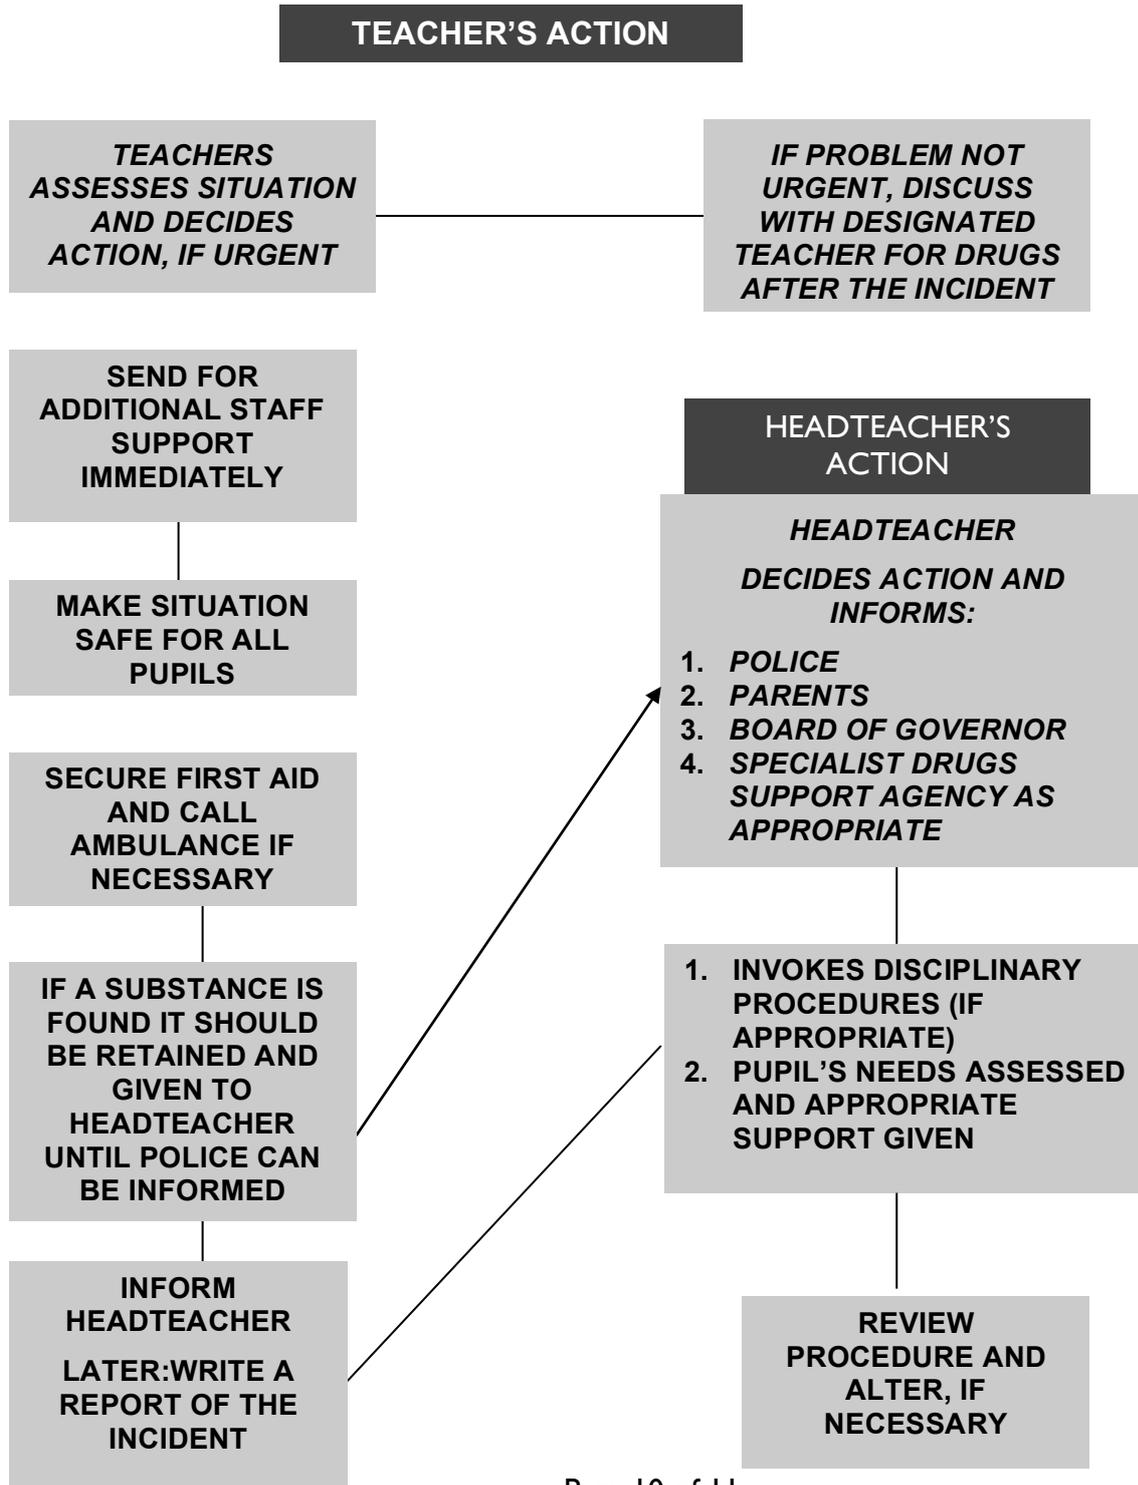

All members of staff are responsible for the safe storage and usage of solvents in their classroom. Where possible they should be locked away when not in use. This includes white board markers, glues and paints. The cleaners and caretakers should also ensure that their stores are locked when not in use and that solvents are held in a secure place.

B. APPENDIX 2 –

14 HANDLING INCIDENTS

Action to be taken in the event of a suspected incident of drug misuse where the designated teacher for drug issues is the Headteacher:

Action to be taken in the event of a suspected incident of drug misuse where the designated teacher for drug issues is not the Headteacher:
